DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-36 are rejected under 35 U.S.C. 102(e) as being anticipated by
Marshall, 2004/0019524.

Marshall teaches a method of presenting purchasing information within a DVD having video content comprising the steps of: identifying product within the video content sought to be sold (paragraph 0012), capturing at least one frame of the video content showing the product (Fig. 4 and paragraphs 0029-0030), graphically modifying the frame to enhance the presence of the product (Fig. 4), creating a menu interface with the frame (Fig. 5, element 21), creating a selectable menu button associated with the product, creating a second menu having purchasing information for the product (element 21), the second menu displayed responsive to the activation of the button.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
